

"Chris provided tutoring support to my daughter prior to taking her A level exams. In just a few sessions, Chris was able to boost her confidence with a few maths concepts in preparation for her exam. He took the time to explain and demonstrate concepts. My daughter passed with a high grade.

I can highly recommend Chris as a maths tutor. Thank you Chris." (Judy)

"Chris is reliable, punctual and more importantly knows his subject! Chris is home tutoring my son for his Maths AS and A2 examinations in the Spring. He has worked out a schedule to be followed in order to cover the syllabus and together they are working through it steadily. My son enjoys his sessions and also gets on with the homework which Chris sets him. Chris is always happy to help out via a phone call or email should Alex require it. I would have no hesitation in recommending Chris." (Joanne)

"I think he's very good. If I don't understand something when he explains it one way he explains it a different way. Most importantly, he doesn't overcomplicate things." (Angus)

"Chris is great as a tutor, his approach and explanation is easy to understand but at the same time Chris is also very patient when I don't understand something and will persevere until I do! I also find that with this approach it is easy to also expand a subject beyond the GCSE level and take it further. I am continuing to use Chris throughout my access to HE course to bolster my understanding to make sure I obtain the grade I need." (Antonia)
